5. PROJECT LISTING

See attached project list from 2009.

6. PROJECT RECOMMENDATIONS

a. HIANG and HIARNG representatives provided narrative descriptions of their projects.

1) Program years and current working estimates were corrected.

2) No joint interest was possible with the current listed projects.

3) Two HIANG projects were removed because they have started construction.

4) The USAR representative was unavailable to meet. We did not hear from USNR, USMCR, or AFR. We left their projects the same as last year.

b. No projects for possible joint construction are identified on the individual component project lists. Possible joint issues were discussed as follows:

NGHI-FMO

SUBJECT: State of Hawaii Joint Service Reserve Component Facilities Board

1) It was determined to not be feasible to do any joint construction in any of the HIARNG Kalaeloa projects. The HIANG Headquarters did not want to move to Kalaeloa, so has pulled out of PN 150301. It has not been a joint project since January 2008.

2) The ANG project at Pu u nene will be on an ARNG site. However the ARNG project was constructed in 2003, so no joint construction.

c. The projects for unilateral construction are identified on the projects list. There are no common or shared interests at these locations with the various reserve components.
