ID	ARNG	Gowen Field	Boise	Unheated Aircraft Storage Facility	8 mil	11/18/10	2020	160131	
ID	ARNG	Gowen Field	Boise	LAASF	25.1 mil	11/18/10	2021	160133	

Remark Codes:

- **JC:** *Joint Construction.* A MILCON project that combines the space and functional requirements of two or more Service Components into one facility, thereby eliminating the need to build separate (or unilateral) facilities.
 - Each component occupies the facility, and has some exclusive use space; however, the facility also has shared or common use areas that effectively reduce the overall required square footage.
 - Cost savings occur due to the design and construction of one facility instead of two.
 - Cost savings also occur in contract administration, supervision, inspection, and overhead.
 - Cost savings continue after construction by eliminating duplication of the following requirements: facility sustainment, antiterrorism/force protection, future restoration and modernization costs.
- **JU:** *Joint Use (or Joint Use Construction).* Projects that will be used by more than one component during training activities, however will be funded, designed, and constructed by a single component.
- **Blank:** Unilateral Construction
