

BOARD MEETING MINUTES
OF THE
JOINT SERVICE RESERVE COMPONENT FACILITY BOARD
STATE OF KANSAS
FY 2014
16 OCTOBER 2013

A. CONVENING THE JSRCFB:

In accordance with DOD Directive 1225.7, 6 June 2001, the FY 2014 Kansas JSRCFB convened at 1000 on 16 October 2013 as a teleconference meeting in room 127 in the Nickell Armory at 2800 SW Topeka, Blvd, Topeka, KS, 66611.

B. ATTENDANCE:

See attached signature sheet.

C. ACTION ON MINUTES OF PREVIOUS MEETING:

The minutes of October 2012 were reviewed and approved.

D. PROJECT SUMMARIES:

Members provided updated project information to the board. Updated/approved projects are listed in the attached project listing.

Lt. Col James Culp of the KSANG spoke about three projects two at Smoky Hill and one at McConnell. Range training support facility at \$3 million as a unilateral project along with a demo of a different building, second replacement of main headquarters facility at \$2 million for the range along with the demo of a different building as a unilateral project. The project at McConnell would be constructing a second floor in an old hangar for computer support facility at \$2 million as a unilateral project.

Col. Mark Green spoke for the KSANG from Forbes Field confirming that they have no construction projects planned in Forbes Field.

LTC Eric Blankenship of the KSARNG spoke of four projects that are currently under construction Mr. Mark Lewis proposed to remove current construction off of the list and

LTC Blankenship agreed. He then continued with the rest of the LRCP, with three projects being unilateral and nine being joint working with the Army Reserve. The Reserves expressed their desire for coordination with the KSARNG with the Lawrence project. Col. Green expressed the desire to meet with the Reserves and two critical events FMS Facility and Wichita Readiness Center with expansion capability coming online and a readiness transformation program that we are working on that will result in a planned approach for Kansas, also in a stationing process because of a fires brigade that was added to the KSARNG with results coming up in December to January. Hoping to work in concert with the Reserves to see what opportunities can be worked jointly. Will try to work more with geographical locations not in a pinpointed facility because of abilities there may be with the Reserves. He is also looking for opportunities with the KSANG that can be expanded to accommodate other reserve units. He would also like to engage with the Reserves this fall and solidify a draft master plan for the state by springtime. He spoke about the Marines possibly working with the KSARNG in Wichita also.

Navy Reserve Debbie stated they have no projects for the State of Kansas.

Marine Corp Mr. Conner note from last years minutes for potential joint readiness center in Wichita has been removed from the long range planning horizon due to higher priorities needs around the country and they have no other projects.

Army Reserve have a project in Tonganoxie they have real estate issues that have pushed the project to the right. They are looking at mid December resolution to the real estate issue and an early spring ground breaking. Ft. Riley the ARC Army Reserve Center OMS, unheated storage and fire truck storage project would consolidate Manhattan with units on post in various buildings into the Camp Funston area. Possible joint provided on input. ECS has been on the books for a while but has a lower priority and will probably be on hold for quite some time. Independence project consolidates either Parsons or another, with a joint project in Joplin that will pick up the other unit. They are willing to look at a joint project in Coffeyville if demographically beneficial or if they can be talked into it. Their Ft. Riley USARC scoring very highly with their rating system. MAJ Ball believes we should go into a joint venture on both Ft. Riley and Independence.

LTC Blankenship made a motion to move the annual meeting to June timeframe next year. June 25th at 1000 central time was proposed and accepted.

Mark identified the host for next year as the KSANG and requested that the KSARNG accept those duties, the KSARNG accepted.

Mark made a movement to conclude the meeting no one objected.

Number of projects reviewed: 25

Number of projects approved for Unilateral: 14

Number of projects approved for Joint: 11
