See attached signature sheet

## **IDANG Project Listing**

CITY	PROJECT	COST	DATE	FY	PROJ_NO	REMARKS			
Boise	Construct Operations Training Medical Complex	11.6 Mil	5/14/09	2017	BXRH019091				

**Remark Codes:**

- **JC:** *Joint Construction.* A MILCON project that combines the space and functional requirements of two or more Service Components into one facility, thereby eliminating the need to build separate (or unilateral) facilities.
  - Each component occupies the facility, and has some exclusive use space; however, the facility also has shared or common use areas that effectively reduce the overall required square footage.
  - Cost savings occur due to the design and construction of one facility instead of two.
  - Cost savings also occur in contract administration, supervision, inspection, and overhead.
  - Cost savings continue after construction by eliminating duplication of the following requirements: facility sustainment, antiterrorism/force protection, future restoration and modernization costs.
- **JU:** *Joint Use (or Joint Use Construction).* Projects that will be used by more than one component during training activities, however will be funded, designed, and constructed by a single component.
- **Blank:** Unilateral Construction
