SUBJECT: Joint Service Reserve Component Facility Board (JSRCFB) Update

The JSRCFB is a process requiring each state to annually assess Reserve component Military Construction (MILCON) projects for potential as joint construction projects. This requirement originates with Title 10, Chapter 1803, which directs OSD to ensure the greatest practicable use of joint facilities by units of two or more Reserve components. The JSRCFB is comprised of appointed members from each Reserve component that has at least one unit in that state or territory.

I am refining the JSRCFB process to better meet the objective of maximizing joint construction for the Reserve components.

The first phase of the process identifies three specific changes: a revision to the data fields submitted in the State Board minutes, a format change for submitting minutes, and an annual deadline of September 1st of each year for the submissions of all State Board minutes. These revisions are reflected in the attached JSRCFB Brief. The brief and additional information is located on the OASD Reserve Affairs Website at <http://www.defenselink.mil/ra/html/JSRCFB.html>.

Over the next few months the OASD/RA (M&F) staff will be re-examining the process of identifying, programming, and executing joint construction projects. This effort is an attempt at addressing barriers to joint construction projects and efficient use of resources. I ask for your support and endorsement of this effort. If additional information is needed, please have your staff contact Colonel Richard Nord at (703) 693-8110, richard.nord@osd.mil.
