MISSION: To maximize usage of Reserve Component Land, Facilities, and Installations by promulgating Joint Use and Construction by two or more Reserve Components.

Purpose

BLUF: Identify Opportunities for Joint Construction/Use of Facilities

- Review and Validate Alaska's Reserve Component Military Construction (MILCON) Requirements / Identify “Potential” Joint Projects
- Establish and Maintain Communication Between Reserve Components / Encourage Pursuit of Best Opportunities for Joint Construction and Joint Use of DOD Facilities
- Achieve Common Levels of Support Across all Services
- Seek Service Budget Request and Congressional Support
- Leverage Scarce MILCON Resources
- Provide State of the Art Facilities for Reserve Components

Current MILCON

ST	COMP	INSTALL	CITY	PROJECT	COST	DATE	FY	PROJ_NO	REMARKS
AK	ARNG	JBER	Anchorage	USPFO Building	27.000	9/15/09	18	020143	Not Joint

Remark Codes:

- **JC:** *Joint Construction.* A MILCON project that combines the space and functional requirements of two or more Service Components into one facility, thereby eliminating the need to build separate (or unilateral) facilities.
 - Each component occupies the facility, and has some exclusive use space; however, the facility also has shared or common use areas that effectively reduce the overall required square footage.
 - Cost savings occur due to the design and construction of one facility instead of two.
 - Cost savings also occur in contract administration, supervision, inspection, and overhead.
 - Cost savings continue after construction by eliminating duplication of the following requirements: facility sustainment, antiterrorism/force protection, future restoration and modernization costs.
- **JU:** *Joint Use (or Joint Use Construction).* Projects that will be used by more than one component during training activities, however will be funded, designed, and constructed by a single component.
- **Blank:** Unilateral Construction
