

USAR 2018-19 Idaho Project Listing

ST	COMP	INSNO	City	Project Title	COST	Project #	Current Status	Remarks
ID	USAR	16725 16745	Boise Boise	ARC / AMSA / OMS / UHS. Consolidate Lugenbeel ARC and Rainey ARC/AMSA	?	?	#26 on 1-N list	Facility is ISR Q2 and <75% occupied

Remark Codes:

- **JC:** *Joint Construction.* A MILCON project that combines the space and functional requirements of two or more Service Components into one facility, thereby eliminating the need to build separate (or unilateral) facilities.
 - Each component occupies the facility, and has some exclusive use space; however, the facility also has shared or common use areas that effectively reduce the overall required square footage.
 - Cost savings occur due to the design and construction of one facility instead of two.
 - Cost savings also occur in contract administration, supervision, inspection, and overhead.
 - Cost savings continue after construction by eliminating duplication of the following requirements: facility sustainment, antiterrorism/force protection, future restoration and modernization costs.
- **JU:** *Joint Use (or Joint Use Construction).* Projects that will be used by more than one component during training activities, however will be funded, designed, and constructed by a single component.
- **Blank:** Unilateral Construction

USMCR 2018-19 Idaho Project Listing

ST	COMP	INSN O	City	Project Title	COST	Project #	Current Status	Remarks
