ALTERNATIVES CONSIDERED - Alternatives for a project on an air base consist only of the "build" or "no-build" alternatives, since air facilities are generally specialized for the Air Force mission.

RECOMMENDATIONS - All ANG projects were recommended for unilateral construction.

Note: This Project Listing does not negate the requirement for DD Form 2162 in the analysis process.

* potential BRAC project

Alternatives Considered:

National Guard Readiness Centers:

Alt. 1 - Do nothing. These facilities have surpassed their expected life cycle and do not comply with current DoD, ARNG, and State/Local construction criteria. This has a negative impact on the units' ability to train and store assigned equipment. Therefore, this alternative is not acceptable.

Alt. 2 - Lease existing space. Building space that includes administrative and assembly areas, secure storage for military equipment, kitchen facilities, arms vaults, and fenced vehicle parking is not available in these cities. Therefore, this alternative is not feasible.

Note: This Project Listing does not negate the requirement for DD Form 2162 in the analysis process.
